PROFESSIONAL SUMMARY

Results-driven Java Developer with **7 years of experience** in the analysis, design, development, testing, and implementation of enterprise-grade software applications. Proficient in **Core Java, JSP, Servlets, JDBC, Spring, Spring Boot, Spring MVC, Hibernate, JPA, Struts 2, REST APIs, Microservices, Apache Spark, Maven, XML, JSON, and AWS services (S3, SES, CloudFront)**. Experienced in building scalable, high-performance, and secure applications across diverse business domains.

Strong expertise in object-oriented programming, application architecture, and software design principles, with hands-on experience throughout the **Software Development Life Cycle (SDLC)** using **Agile (Scrum)** and **Waterfall** methodologies. Adept at troubleshooting complex technical issues, optimizing application performance, and delivering high-quality solutions. A proactive and collaborative team player with excellent analytical, problem-solving, and communication skills, capable of working independently while consistently delivering business value.

EXPERIENCE

- Synechron Technologies Pvt. Ltd., Pune, Sr. Associate Technology** April 2025 – Present
Worked as a Java Developer, contributing to the design, development, testing, deployment, and maintenance of enterprise-grade applications using Java, Spring Boot, Microservices, Hibernate, REST APIs, Apache Spark, and AWS services. Collaborated with cross-functional teams, optimized application performance, resolved production issues, and delivered high-quality software solutions aligned with business requirements.
Worked on a strategic financial accounting platform for a leading global investment bank. The platform captures business events and associated data, performs data enrichment, and generates primary and secondary accounting entries for financial reporting, business approvals, and regulatory compliance. It plays a key role in maintaining the organization's Books and Records.
- Capgemini Technology Services India Limited, Pune, Senior Consultant** May 2024 – Sep 2024
Assisted in the setup and configuration of project environments. Participated in team meetings to understand project requirements and deliverables. Collaborated with senior developers on initial code reviews and quality checks. Engaged in continuous learning and familiarization with HSBC's digital transformation tools and processes. Provided support in documentation and initial stages of project planning and development.
- Jambopay Express Pvt. Ltd. (FidyPay), Indore, Project Lead** Sep 2023 – May 2024
Responsible for developing and managing project plans, timelines, budgets, and risk assessments. Led cross-functional teams and stakeholders toward successful project delivery. Oversaw and guided technical teams through planning, design, development, testing, and deployment stages. Communicated project progress, risks, and expectations both internally and externally. Gathered and analyzed feedback to enhance processes, products, and services. Created detailed project plans with clear milestones and ensured alignment with company goals and technical roadmaps. Assigned tasks to team members and monitored overall progress to meet deadlines.
Worked on FIDYPAY, a digital payment and financial services platform providing services such as UPI, BBPS, eNACH, eKYC, connected banking, bill payments, recharges, and ticket booking. Developed and maintained scalable APIs for B2B clients, enabling seamless payment integration and transaction management.
Tech Lead April 2022 – August 2023
Defined technical direction, standards, and best practices for software development and infrastructure. Designed and implemented frameworks for technical standards and procedures. Oversaw software quality, system changes, and resolved technical issues faced by the team. Conducted risk analysis, identified process redundancies, and developed suitable solutions. Provided mentorship to developers, architects, and engineers while supporting the development of scalable systems.
Senior Subject Matter Expert April 2021 – March 2022
Worked closely with leadership to define project objectives and establish consistent processes and policies. Communicated and enforced policy changes within teams, obtaining management approvals and incorporating revisions where needed. Addressed project-related challenges within the domain of expertise. Contributed to Java/J2EE architecture and design decisions, and led code reviews to uphold software quality and maintainability.
Subject Matter Expert (SME) April 2020 – March 2021
Gained practical experience in Java, Hibernate, Struts, Tiles, and RESTful Web Services. Learned Java/J2EE technologies through structured training and hands-on development. Supported application development efforts and became proficient in common tools, libraries, and frameworks used in enterprise-grade Java applications.
- MS Techment Technology Pvt. Ltd., Indore, Application Developer** March 2020 – April 2020
Worked as a Java Developer, responsible for designing, testing, and maintaining Java-based applications. Collaborated with team members to define requirements and ship new features. Participated in code reviews, providing constructive feedback and troubleshooting issues to ensure system performance and reliability.
- Jambopay Express Pvt. Ltd. (FidyPay), Indore, Subject Matter Expert (SME)** April 2019 – March 2020
Worked with Java and J2EE technologies, acquiring a strong understanding of frameworks like Hibernate, Struts, and RESTful services. Participated in application development and learned through active contribution and self-directed learning. Supported the development of scalable Java applications in collaboration with the team.

EDUCATION

MCA, RGPV University, Bhopal	2017
B.Com, DAVV University, Indore	2014
Intermediate+2, Madhya Pradesh Board of Secondary Education	2011
High School, Madhya Pradesh Board of Secondary Education	2009

TECHNICAL SKILLS

Programming Languages

Core Java, J2EE, JSP, Servlets, JDBC, JavaScript, HTML, HTML5, CSS, SQL

Database Technologies

MySQL, SQL Server, Oracle

Frameworks

Spring, Spring Boot, Spring MVC, Hibernate, JPA, Struts 2.0, REST APIs, Microservices, Apache Spark

Application Servers & Cloud Technology

Apache Tomcat, JBoss, AWS (S3, SES, and CloudFront)

IDEs & Tools

IntelliJ, Eclipse, STS (Spring Tool Suite), NetBeans, Oracle SQL Developer, Maven, S3 Browser, DBeaver

Version Control Tools

Git

AI & Developer Productivity

Leveraged AI-assisted development tools (GitHub Copilot and ChatGPT) to accelerate code generation, debugging, documentation, unit test generation, and overall developer productivity.

AWARDS & EXTRA CURRICULAR ACTIVITIES

Star Award

Received the Star Award in recognition of outstanding performance and proactive collaboration with clients.

Audit and Compliance Oversight

Engaged in external audits to assess software systems for regulatory compliance, ensuring adherence to industry standards (PCI DSS, ISO 27001)

Documentation and Reporting

Produced comprehensive documentation detailing compliance strategies, audit findings, and recommended actions for improvement, ensuring transparency and accountability within the development process.

Training Program Development

Spearheaded the design and delivery of comprehensive product training programs for the operations team, ensuring a deep understanding of software functionalities, operational workflows, and system optimizations.

STRENGTH

- Adaptable to new challenges
- Strong Problem-Solving Skills
- Collaborative Team Player
